# SACATON INDIANS TO

Reservation Red Mcn Are Arranging Plans for a Big Show for Early November.

The Indian reservation is nearer to Mesa than any other town of reasonable size, hence what granspires there is clways of interest to the people of this section. The news that the Indianz of the reservation will hold a fair at Sacaton on the first, second and third of November has caused a great deal of interested comment here and no doubt many Mesa people will be in attendance. Prospective cotton growers are especially concerned in the success of the fair. The reservation is said to have produced considerable quantities of that staple and samples will be in evidence at the fair. If cotton can be raised successfully there, all doubt will be dispelled as to the success of the industry at Mesa, In addition to cotton, there will be exhibits of the corn, wheat, barley and other produce grown under the irrigation system supplied the Indians by the government. A question has been raised whether the pumped water at that point is or is not injurious to the land and a fair idea may be erson. obtained by an inspection of the products of the land in dispute. The exhibits of Indian curios will also be of eroy interest, esecially to eastern people who may happen to be stopping in this section at the time of the fair.
